Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-5, drawn to a method of producing a population enriched in a first type of cell.

Group II, claim(s) 6-15, drawn to a microfluidic system.

Group III, claim(s) 16-37, drawn to methods for separating and producing cell populations associated with cells of a second type of cell.

Group IV, claim(s) 38-43, drawn to a kit.

Group V, claim(s) 44--50, drawn to a method of producing a depleted cell population.

Group VI, claim(s) 51-56, drawn to a microfluidic device.

Group VII, claim(s) 57-69, drawn to a microfluidic device having a first and second regions.

The claims lack unity since they do not have the same technical feature and each independent and distinct invention possesses its own technical feature. For example, Group I and III require first and second types of cells, respectively. Also a microfluidic system as defined by Group II requires special technical features for which to define the system that are not required of Groups I and III. Group IV is kit which is different in and

of itself and Group V is a different process having technical steps which are not required of the other methods identified by Groups I and III. Furthermore, the devices of Groups VI and VII require different technical features to form and makeup the respective devices wherein Group VI does not require the first and second regions of Group VII of which does require different coatings not required of Group VI.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Deborah K. Ware whose telephone number is 571-272-0924. The examiner can normally be reached on 9:30-6:00.
